

aquila biolabs is a German technology company focusing on the development of innovative laboratory devices for the analysis of bioprocesses in bioreactors, shake flasks and other cultivation vessels. We currently offer an innovative portfolio of bioprocess analytical technologies that are used by a global customer base in both academic and industrial research.

We currently have a vacancy for a

SALES REPRESENTATIVE (F/M)

in our Marketing & Sales team.

During your work as a sales representative at aquila biolabs, you will market and sell our technologies to international customers with a focus on Europe. You will:

- visit customers in their labs and present our technologies
- organize and run demos of our products with customers
- represent aquila biolabs at international trade fairs and conferences

You should hold a scientific or engineering Bachelor's or Master's degree with a focus on microbiology, biotechnology, bioengineering or equivalent fields. Additionally, you should be a person who:

- would like to work in start-up atmosphere
- has an out-going personality
- enjoys communication and ideally is a natural "Seller"
- wants to start a career in Marketing & Sales
- is willed to travel / be "on the road"

Your skills should include:

- profound knowledge in fermentation and bioprocessing
- strong communication skills including fluency in English
- ability to work independently
- strong presentation skills
- preferably, experience in marketing and sales of laboratory devices

If you want to start a career in Marketing & Sales, want to join a young team of highly talented and motivated people as well as to enjoy flexible working times and locations while receiving an attractive salary package, then we look forward to getting to know you personally.

Interested persons may send their full applications to

info@aquila-biolabs.de

including CV, graduation certificates, performance records and, if available, publication abstracts as well as job or project references.
