

aquila biolabs GmbH is a German sensor technology developer of smart sensors and state-of-the-art data analytics software for bioprocessing applications. As a subsidiary of the life sciences tool provider Scientific Industries, Inc., aquila biolabs aims to take the guesswork out of bioprocessing and pioneers digitally simplified bioprocessing by providing actionable insights from lab to production floor.

We currently have a vacancy for a

Production Operator (F/M/D)

in our Production and Logistics Department.

During your work as Production Operator at aquila biolabs, you will i.a.

- Prepare raw material for production according to work instructions
- Assemble (electronic) products and accessories based on standardized protocols
- Ensure adherence to all work instructions and other regulations and guidelines.
- Maintain or set up machines and technical equipment,
- package and store parts and managing warehouse inventory
- manage and operate shipments and other logistics

Your skills should include:

- An ability to learn and keep high motivation while doing routine tasks
- ability to work and learn autonomously and efficiently
- Prioritizing tasks and planning the most efficient procedures
- experience in any field with electric circuits like soldering, reworking, etc is an advantage
- experience in a biological lab and handling equipment is an advantage
- experience in rapid prototyping, 3D-printing and CAD is an advantage
- Good knowledge of English and German.

Reliability, sense of responsibility, commitment and motivation are necessary qualities. You should be having an experience with production and handling of electronic devices and comfortable with hands on work.

In addition to your salary, we offer you **individual training opportunities**, a daily meal allowance via **Lunchit**, tax-free benefits in kind via **Spendit** and a significantly expanded employer participation in the **company pension plan**. Become part of a young, motivated team in a growing biotech company. We look forward to meeting you in person.

Interested persons may send their full applications to career@aquila-biolabs.de including CV, graduation certificates and performance records. A letter of application is not required.
